PROFESSIONAL SUMMARY

UI/UX Designer and Front-End Developer with 1.5 years of healthcare operations experience at Cognizant providing deep domain knowledge, alongside formal UX certification from IDM Tech Park and independent product design projects. Skilled in end-to-end UX process: user research, wireframing, prototyping, and high-fidelity design using Figma. Proven ability to translate complex, real-world workflows into intuitive digital experiences. Seeking to bring both design empathy and technical depth to a product team building meaningful software.

EXPERIENCE

Process Executive · Cognizant Technology Solutions (CTS)

March 2025 – Present

- Worked in Healthcare Claims Adjudication — processing, reviewing and validating insurance claims with high accuracy in a regulated, high-stakes environment
- Gained deep domain knowledge of healthcare workflows, clinical documentation standards and patient data handling — directly informing my understanding of health tech user needs
- Consistently met quality and TAT targets in a fast-paced team environment demonstrating strong attention to detail and process discipline
- Experienced firsthand the pain points of complex healthcare systems — fragmented workflows, poor digital tools and high cognitive load on users — which drives my passion for better UX design

UI/UX Design Student · IDM Tech Park, Coimbatore

2025 – 2026

- Completed formal UI/UX design certification covering wireframing, prototyping, user-centered design and design thinking methodologies
- Designed and delivered full mobile app UI/UX projects using Figma including design systems, component libraries and clickable prototypes
- Applied UX research methods including empathy mapping, user journey mapping, persona creation and usability testing in independent projects

UX DESIGN PROJECTS

VETSSREACH — Veterinary Mobile App · Full UX Case Study | Figma · Miro · Adobe Photoshop

2026

- Led complete end-to-end UX design — from user research through high-fidelity prototype — for a pet healthcare mobile application
- Conducted 12 user interviews, 2 focus groups and shadowed 3 pet owners to identify 4 core pain points including emergency access and cost transparency
- Performed competitive analysis against Vetster, Petdesk, Pawprint and Practo — identified market gaps and design opportunities
- Created 3 user personas, empathy maps, user journey maps, information architecture and full user flows
- Delivered 40+ screens with complete design system, component library and high-fidelity clickable prototype
- Conducted moderated usability testing with 8 participants — 92% task completion rate, SUS score 82/100, NPS 45

DigiYatra — App Redesign · UX Redesign | Figma · Adobe Photoshop

2026

- Conducted UX audit of India's facial recognition airport boarding app and identified critical usability gaps for first-time users
- Redesigned onboarding flow, error state handling and navigation to significantly improve clarity and ease of use
- Focused on accessibility improvements and simplified user flows for diverse user demographics across India

Front-End Development Projects · [HTML5](#) · [CSS3](#) · [Bootstrap](#) · [JavaScript](#) 2025 – 2026

- Built and deployed 3 responsive websites from scratch demonstrating ability to design and develop end-to-end
- LeadGen Sofa Website — conversion-driven landing page focused on lead generation principles
- Yedzi Bike Website — product showcase with strong visual hierarchy and responsive layout
- Paramount Pictures Redesign — cinematic website concept with responsive structure using Bootstrap

SKILLS

UX Design	User Research · Wireframing · Prototyping · Usability Testing · Information Architecture · Design Systems · User Personas · Empathy Mapping · Competitive Analysis
Design Tools	Figma · Adobe XD · Adobe Photoshop · Adobe Illustrator · Miro · Framer
Front-End	HTML5 · CSS3 · JavaScript · React · Bootstrap · Responsive Design · GitHub
Domain	Healthcare Operations · Clinical Workflows · Insurance Claims · Patient Data · Health Tech
Soft Skills	User Empathy · Attention to Detail · Team Collaboration · Time Management · Communication

EDUCATION

B.Sc. Information Technology · [Sri Ramakrishna College of Arts & Science, Coimbatore](#) 2021 – 2024

Graduated with 80% — Nava India Campus, Coimbatore

CERTIFICATIONS

- ▶ UI/UX Design Certification — IDM Tech Park, Coimbatore (2023–2024)
- ▶ Figma to WordPress — Udemy
- ▶ RPA & Automation — UiPath
- ▶ Introduction to HTML — SoloLearn
- ▶ Cybersecurity Workshop — Certificate Completed
